Overview

Core 3.14 will be released to test on 29/07/2021. 2 weeks later on 11/08/2021 Core 3.14 will be released to live. For reference listed below are the changes included in this release.

Tasks

- Removal of overnight job – The overnight job currently clears permissions if they differ to what is on Portal. We will be removing the overnight job
- Removal of 13 year old validation – There is a restriction in place that doesn't allow you to create user accounts for people under 13 years old. This restriction will be removed
- Code errors – Improvements to comply with AA standard

The release contains other system updates that are not directly related to Mosaic Portal. A full list can be provided if required.
